*Based on an internal compilation of the nationwide average of large-production homebuilder customers surveyed by TrustBuilder[®] through to 3/8/24. These are the top 20 U.S. homebuilders ranked by number of closings on the most recent annual Builder Magazine Builder 100 list that Builder Magazine identifies as operating in at least two regions (excluding any company primarily operating a single-family rental, build-on-your-lot or a manufactured home business, or operating as a nonprofit organization). Please note that KBH is part owner with other homebuilders of, and has a board seat at, Builder Homesite, Inc. (BHI), whose subsidiary, Builders Digital Experience (BDX), conducts the TrustBuilder survey through NewHomeSource[™]. However, BHI has an independent management team, and KBH is not involved in TrustBuilder's collection or reporting of reviews or ratings. While we strive to be the highest-rated homebuilder in customer satisfaction, ratings are subject to change, and we cannot guarantee that we will be #1 in any given survey or in any given market at any point in time or over any particular period, nor that any particular customer will be fully satisfied with their KB home.
